

## July 2010 Specials

### **Brand new Zerona Laser! Lose Inches Painlessly! Save \$450!**

We are pairing up the awesome Zerona laser for inch loss with two of our detoxing therapies. 6 Zerona treatments with pressotherapy and ion foot cleanse. The Zerona laser has been used for years prior to liposuction to liquefy the fat cells. Science took it one step further and figured out that if you do 6 treatments each within 72 hours of each other, it will actually leak the fat out of the fat cell which is picked up by the lymphatic system and flushed. Total results are seen in 4-6 weeks! We just had a customer say she's tried everything and this was the best! And the results have stayed with her for over a year! See the video:

<http://www.youtube.com/watch?v=TynqPeXtRLI&feature=related>

We've had amazing results with our first month of treatment!

### **Summer Photofacial Only \$400 - Save \$50!**

### **Start off the summer with permanent hair removal - Buy 5 & get the 6<sup>th</sup> treatment free!**

### **Add a B-12 or Lipoplex injection to your Massage, Facial or Inch Loss Treatment - Save 50%**

- B-12 Only \$12.50! Save \$12.50!
  - Lipoplex Only \$15! Save \$15!
- or
- Buy 6 & pay for 5 all month!

**B-12** - Get some energy! Add some get up and go naturally to get you through our hot humid summer days. Vitamin B-12 is a water-soluble B vitamin that helps transform fats and proteins from foods into energy and works with folic acid to produce normal red blood cells. An adequate supply of vitamin B-12 is also necessary for normal neurological function.

**Lipoplex** - If there has ever been a magic bullet for weight loss, this is as close as we may ever come. What makes this medication so effective is that it is an ideal composition and molecular structure. It consists of lipotropic compounds that promote the flow of fat and bile to and from the liver. In reality, they produce a decongestive effect on the liver, which increases the metabolism to a much higher rate. Lipoplex also contains methionine, an amino acid that prevents excess fat from building up in the body, thus preventing fatigue and increasing energy.

## **Mojito Pedicure**

Have the ultimate scrub down with fresh limes and lemons and a great mojito scrub. Sip a fresh mojito while your tooties are being pampered! In our private nail room! Save \$15 - Only \$50!
